

Most Common

ETS Laboratories is pleased to provide this condensed fee schedule listing our most commonly requested analytical services for the biofuel industry.

A Brief Selection

Our complete schedule consists over 300 analyses and is available on our website www.etslabs.com. We offer an “alphabet soup” of advanced techniques including GC, HPLC, GC/MS, CE, and UV/VIS to accommodate even the most esoteric analytical request.

TYPE	ANALYSIS	Method	Fee / Sample (\$)			Sample Size (mL)
			Number of Samples	1	2 ~ 10	

MICROBIOLOGY

Direct Cultures by Plating	Yeast contaminant	\$27	\$27	\$27	60
	Bacteria contaminant	\$27	\$27	\$27	60

ETS Scorpion™ Analyses	Biocontaminant Panel	\$100	\$95	\$90	60
	Saccharomyces Analysis	\$80	\$77	\$75	60
	Combined Biocontaminant and Saccharomyces Panel	\$140	\$135	\$130	60
	Bacterial Species Specific Analysis	<i>please enquire</i>			

Further Discounts

We provide contract fee arrangements for many volume clients. These are based upon regular large volume sample submittal, and may further reduce fees quoted in this schedule. Please call to discuss your specific requirements and quote contract fees when appropriate.

Sample Deliveries

Geographical limitations disappear with the availability of over night delivery service. ETS receives samples daily from around the world via United Parcel Service (UPS) and Federal Express.

Business hours at all ETS locations are 8:00 AM to 5:30 PM, Monday through Friday. We maintain extended hours, including weekends, during harvest.

ETS Laboratories is accredited to the ISO/IEC 17025:2005 Standard by the American Association of Laboratory Accreditation for most analyses performed at all four laboratory facilities. ETS chemists are also certified by the Alcohol and Tobacco Tax and Trade Bureau (TTB) for export analysis of wines and spirits.

Please call if you have any questions. You may also contact us via email at info@etslabs.com. The ETS web-site www.etslabs.com contains additional analytical details and application notes.
